
PROFESSIONAL SUMMARY

Highly skilled and motivated Software Engineer with over 4 years of experience in designing, developing, and maintaining web applications and APIs. Proficient in JavaScript, React, Node.js, and HTML/CSS, with a strong understanding of Git version control. Adept at working with cross-functional teams to deliver scalable and high-quality software solutions. Seeking to contribute technical expertise and problem-solving abilities to a growing engineering team.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, HTML/CSS, TypeScript
 - **Web Technologies:** React, Node.js, REST APIs, GraphQL
 - **Version Control:** Git, GitHub, GitLab
 - **Cloud Platforms:** AWS (basic knowledge), Azure (basic knowledge)
 - **Databases:** MongoDB, PostgreSQL, MySQL
 - **Tools:** Docker, Webpack, Babel, Nginx
 - **Development Practices:** Agile/Scrum, Test-Driven Development (TDD), Continuous Integration/Continuous Deployment (CI/CD)
-

PROFESSIONAL EXPERIENCE

Software Engineer

XYZ Technologies – San Francisco, CA

June 2021 – Present

- Designed, developed, and maintained web applications using **React** for the frontend and **Node.js** for the backend.
- Collaborated with cross-functional teams to deliver high-quality software solutions, meeting tight deadlines in an Agile development environment.
- Built and integrated **REST APIs** to enable seamless data flow between the front-end and back-end systems.
- Utilized **AWS** for hosting and deploying applications, and **Docker** for containerization.
- Wrote unit and integration tests with **Jest** and **Mocha** to ensure code quality.
- Participated in code reviews, providing feedback on best practices and maintaining high standards of code quality.
- Managed code versioning using **Git** and worked collaboratively with remote teams on GitHub.

Junior Software Engineer

ABC Solutions – San Francisco, CA

July 2019 – May 2021

- Assisted in the development and deployment of web applications and APIs, working primarily with **React** and **Node.js**.
 - Implemented **HTML/CSS** for responsive and mobile-friendly designs across multiple platforms.
 - Contributed to the design and implementation of **database schemas** for MongoDB and PostgreSQL.
 - Assisted senior engineers with troubleshooting and debugging software issues.
 - Developed user-friendly features by collaborating with product managers and designers to ensure smooth user experience (UX).
-

EDUCATION

Bachelor of Science in Computer Science

University of California, Berkeley – Berkeley, CA

Graduated: May 2019

PROJECTS

Online E-Commerce Platform

- Built a full-stack **e-commerce** website using **React** for the front-end and **Node.js** with **MongoDB** for the back-end.
- Integrated payment systems (Stripe) and developed user authentication and authorization features using **JWT** and **OAuth**.

Social Media Dashboard

- Developed a **real-time analytics dashboard** for social media data using **React** and **Socket.IO** to display data updates instantly.
 - Designed RESTful APIs to interact with external APIs and fetch data for the dashboard.
-

CERTIFICATIONS & COURSES

- **AWS Certified Solutions Architect – Associate** (*Expected: 2025*)
 - **JavaScript Algorithms and Data Structures** – freeCodeCamp
 - **React Developer Certification** – Codecademy
-

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Spanish (Conversational)

- **Volunteer:** Volunteer Developer at **Code for Good**, mentoring students in JavaScript and React.
-
